

Horizon Europe Overview

August 2026

European Union
in Aotearoa New Zealand

The European Union and New Zealand are close, like-minded partners with longstanding historical, cultural, political and economic ties. Both share a deep commitment to fundamental democratic values, human rights, and the rule of law and cooperate closely on key global challenges including climate change, rules-based trade and security.

The EU–NZ Free Trade Agreement entered into force on 1 May 2024, supporting open and fair trade, green growth, and economic resilience.

New Zealand is the first global partner to Horizon Europe (Pillar 2), the world's largest research and innovation programme, enabling strong EU–NZ collaboration to tackle global challenges.

New Zealand's association to Horizon Europe (Pillar 2)

Background information

Horizon Europe is the 9th European Union's Research & Innovation Framework Programme for research and innovation, running from 2021 to 2027.

International cooperation in research and innovation is a strategic priority for the European Union. As part of Horizon Europe, the European Union is strengthening its ties with trusted global partners that have a robust research track record. **Association** to the EU's R&I Framework Programmes is the closest possible form of cooperation in research between the European Union and a non-EU country. As of January 2026, there are 22 Associated Countries¹ to Horizon Europe, while a number of association negotiations are underway². In addition, participants from low to middle-income countries explicitly listed in the "List of Participating Countries" are eligible for funding.

New Zealand is the first like-minded highly industrialised country outside the EU's neighbourhood to associate to Horizon Europe (Pillar 2).

The EU-NZ agreement on New Zealand's association to Horizon Europe (Pillar 2) was signed in Brussels on 9 July 2023 in the presence of the European Commission President Ursula Von der Leyen and New Zealand Prime Minister Chris Hipkins.

The Agreement entered into force immediately via provisional application, allowing New Zealand-based entities and researchers to apply for funding for collaborative projects with partners from the EU Member States and other Associated Countries.

Horizon Europe Pillar 2

Horizon Europe (2021-2027) is the most open and by far the largest research and innovation programme globally. New Zealand is associated to Pillar 2 (*Global Challenges and European Industrial Competitiveness*) of Horizon Europe, aiming to address shared political agendas and to work together in fields of common interest, especially our major global challenges - climate change, sustainable agriculture, digital, energy, health, civil security for society.

Horizon Europe has a total budget of €95.5 billion (approx. \$188 billion³) for the 2021-2027 period. Pillar 2 includes the largest share of the funding of the programme with a **budget of €53.5 billion** (approx. \$105 billion).

Pillar 2 is for **collaborative research projects**, established through Clusters of R&I activities in order to maximise integration and synergies across the respective thematic areas while securing high and sustainable levels of impact. The general rule⁴ is that research entities from Member States and Associated Countries shall join an international and inter-disciplinary consortia in order to access Pillar 2 funding opportunities, forming a team of at least three partner organisations from three different EU or associated countries, with at least one of the three partners established in an EU Member State.

Pillar 2 includes 6 thematic areas, i.e. Clusters, focused on specific societal challenges:

- Health: €8.2 billion⁵ (approx. NZD16 billion⁶)
- Culture, Creativity and Inclusive Society: €2.3 billion (approx. NZD4.5 billion)

¹ [List of participating Countries in Horizon Europe](#)

² [Updates on the association of third countries to Horizon Europe](#)

³ InforEuro March 2026 Exchange rate

⁴ Please note that specific calls for proposals may be subject to distinct eligibility conditions

⁵ Clusters budgets are for the period 2021-2027

⁶ InforEuro March 2026 Exchange rate

- Civil Security for Society: €1.6 billion (approx. NZD3 billion)
- Digital, Industry and Space: €15.3 billion (approx. NZD30 billion)
- Climate, Energy and Mobility: €15.1 billion (approx. NZD30 billion)
- Food, Bioeconomy, Natural Resources, Agriculture and Environment: €9.0 billion (approx. NZD 18 billion).

New Zealand association - Success stories

New Zealand entities have now been able to apply for funding under New Zealand's Horizon Europe association for almost 3 years. While further applications are under way, to date, there have been **38 successful** with final decisions, which is a success rate of just under **18.4%**. See Annex II for full list of entities participating in the winning consortia).

Additionally, as under the previous R&I Framework Programme (“Horizon 2020”, 2014-2020), New Zealand continues to successfully participate as a third country in Horizon Europe Pillar 1 actions – accounting already for 24 participations in the MSCA ([Marie Skłodowska-Curie Actions](#)), the European Union's flagship funding programme for doctoral education and postdoctoral training.

Where to find information

See the European Commission website to learn about upcoming and past research and innovation **events in Europe** (recording available): [Events | The research and innovation community platform \(europa.eu\)](#).

New Zealand Ministry of Business, Innovation and Employment (MBIE) is the lead ministry in charge of the association to Horizon Europe and has established a network of **National Contact Points (NCPs)** to provide information, advice and support to potential Horizon Europe applicants in the 6 main themes (clusters). See full list of NCPs in Annex 2. The NCPs list and other useful information can be found on MBIE's website on Horizon Europe: [Horizon Europe | Ministry of Business, Innovation & Employment \(mbie.govt.nz\)](#).

EURAXESS Australia & New Zealand is an EU platform that links researchers of Australia and New Zealand with Europe. They provide free information about European research, career opportunities, international collaboration & networking possibilities. For targeted information, news and upcoming webinars/missions in New Zealand, see [EURAXESS Australia and New Zealand | EURAXESS \(europa.eu\)](#).

All open and forthcoming **Horizon Europe calls** are listed at the Funding & Tender opportunities Portal: [Funding & tenders \(europa.eu\)](#).

Search all public Horizon Europe funded projects with NZ participation on [CORDIS platform](#).

Annex III

Horizon Europe Projects involving New Zealand Entities

Successful applications under New Zealand's association to Horizon Europe Pillar II

Successful projects by clusters

Cluster 1 Health	6
Cluster 2 Culture, Creativity and Inclusive Society	5
Cluster 3 Civil Security for Society	0
Cluster 4 Digital, Industry and Space	3
Cluster 5 Climate, Energy and Mobility	6
Cluster 6 Food, Bioeconomy, Natural Resources, Agriculture and Environment	18
Total	38

Successful projects by funding scheme:

Research and Innovation Actions (RIA)	21
Innovation Actions (IA)	12
Programme Cofund Actions	3
Coordination and Support Actions (CSA)	2
Total	38

Successful projects by universities

Organisation	Number of successful projects
University of Auckland	5 (CL 1; CL 2, CL 5)
Auckland University of Technology	2 (CL 2, CL 4)
University of Waikato	2 (CL 2, CL 6)
Massey University	0
Victoria University of Wellington	2 (CL 2, CL 6)
University of Canterbury	6 (CL 5, CL 6)
Lincoln University	4 (CL 6)
University of Otago	5 (CL 1, CL 6)

Other NZ organisations, successful beneficiaries of Horizon Europe funding, include:

- NZ Institute for Bioeconomy Science (PRO): 5 (CL4, CL6)
- Earth Sciences NZ (PRO): 1 (CL 5)
- Lincoln Agritech: 1 (CL 6)

- Urban Intelligence: 1 (CL 5)
- Wellington City Council: 1 (CL 5)
- Christchurch City Council and ChristchurchNZ: 2 (CL 5, CL 6)
- Sequench: 1 (CL 6)
- Nelson Artificial Intelligence Institute Limited: 1 (CL 6)
- DairyNZ Limited: 2 (CL 6)
- NZ Ministry of Health and the Medical Research Institute of NZ: 1 (CL 1)
- Callaghan Innovation: 1 (CL 6)
- The Cawthron Institute: 1 (CL 6)
- GNS Science: 1 (CL 5)
- Stellar Kinetics Ltd: 1 (CL 4)
- Anglican Social Services (Hutt Valley) Trust Board: 1 (CL 5)
- Hutt City Council: 1 (CL 5)

EU partner countries across the 38 successful projects

EU country	Total number of projects	Number of projects with the EU country participation by clusters					
		Cluster 1	Cluster 2	Cluster 3	Cluster 4	Cluster 5	Cluster 6
Italy	32	4	4		3	6	15
Belgium	26	4	3		1	4	14
